	manner of use of irrigation permit, described by the second of the secon	ribe acreage to	be removed from irri	gation.	of Section 7, T.13N.,
	R.20E., M.D.B. &				
9.	Use will be from I Janu	Month and	l Day	toto	each year.
10.	Use was permitted from	I Janus	ary onth and Day	to SI Decei	mber of each year.
11.	• • •				y be required to submit plans and
					th air stripping to be diverted, i.e., diversion structure, ditches,
	tower, pump and a pipes and flumes, or drilled well, etc.	ssocia	ted pipin	ıg.	
12,	Estimated cost of works \$2	0,000	for pump,	powerline and	associated piping.
13.	Estimated time required to c well 96 feet deep as monitoring wel	, scre	ened irom	196 leet to 86	d. Gravel packed feet. Constructed it 50651

14. Estimated time required to complete the application of water to beneficial use. 1 year					
5. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.					
This environmental control well is part of a remedial measure reviewe					
by NDEP. Groundwater will be extracted from the intermediate aquifer					
and treated by air stripping. Treated water will be discharged to					
irrigation ditched on land owned by Bently Nevada Corporation. s/Thomas A. Foote, Agent By 160 Hubbard Way #2 Reno, NV 89502 Compared CC/Se bp/ct					
Protested					
APPROVAL OF STATE ENGINEER					
granted is only a temporary allowance for pollution control as mandated by orders issued by the Nevada Division of Environmental Protection and subsequent correspondence with said agency. The right will cease to exist upon termination of clean up activity as determined by the Nevada Division of Environmental Protection or January 16, 1991, whichever occurs first. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and records of this measurement shall be submitted on an annual basis. It is also understood that this right must allow for a reasonable lowering of the static water level of permittee's well due to other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of water granted herein at any and all times. This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. This permit is issued pursuant to NRS 534.345 Section 2.					
The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to					
exceed cubic feet per second					
Work must be prosecuted with reasonable diligence and be completed on or before					
Proof of completion of work shall be filed before					
Application of water to beneficial use shall be made on or before					
Proof of the application of water to beneficial use shall be filed on or before					
Map in support of proof of beneficial use shall be filed on or before					
Completion of work filed					
State Engineer of Nevada, have hercunto set my hand and the seal of my					
office, this 17th day of January
